

# OwnCloud Seminarroom Subscription (for Thunderbird/iCal)

17 March 2015  
11:30

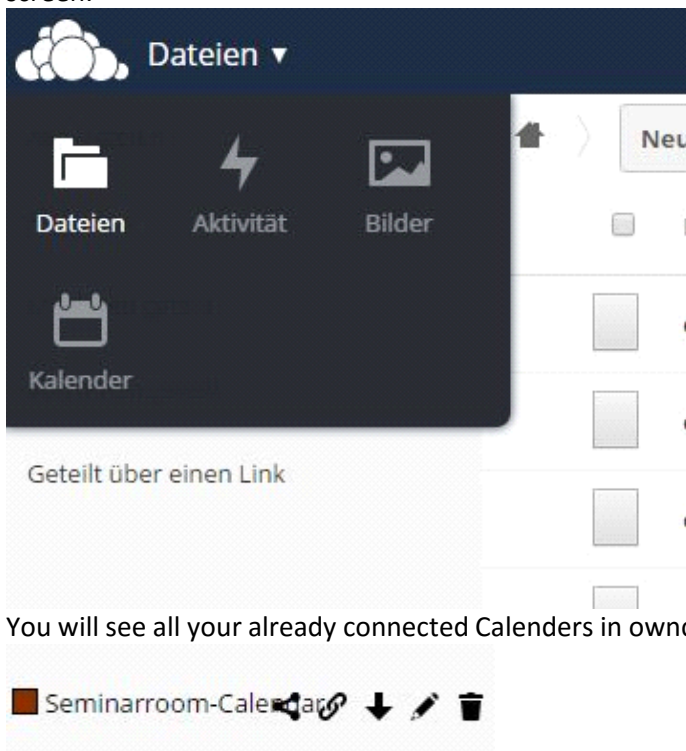

1. Browse to the new OwnCloud WebLogin at:  
<https://cin-118-245.medizin.uni-tuebingen.de:8080>

Accept the private certificate if needed, then you will see the login screen:

Login with your username and password provided for all CIN Services (e.g. Storage or VPN)

2. Now open your Calendar App in the Owncloud Webinterface at the top right side of the screen:

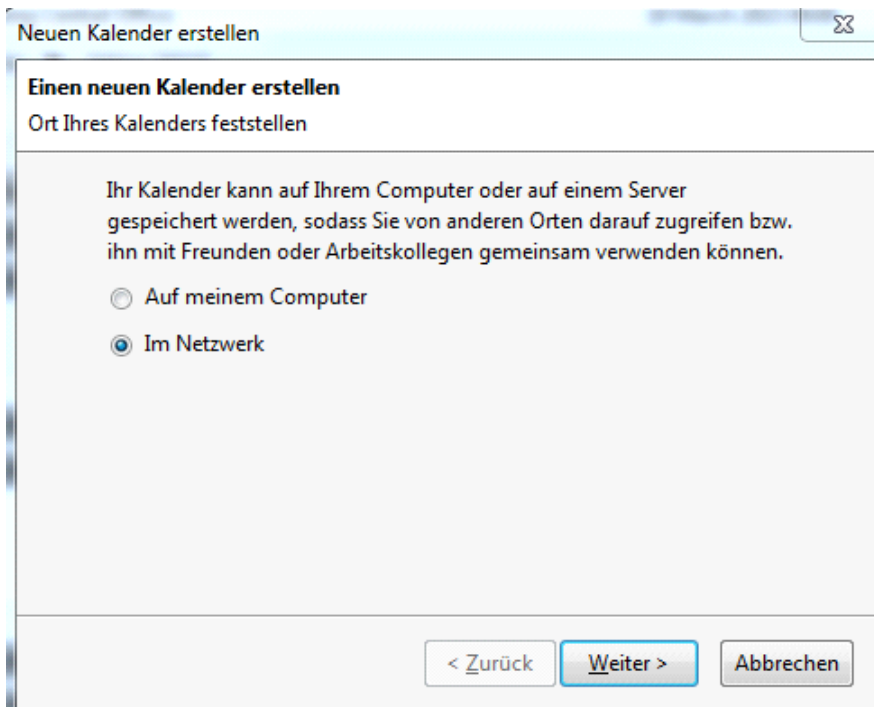

3. You will see all your already connected Calendars in owncloud, also the Seminarroom-Cal:

## Mozilla Thunderbird users:

1. You can find your CalDav Link for Thunderbird to the Seminarroom-Calendar with clicking the second Icon with the chain symbol and you will get something like this:

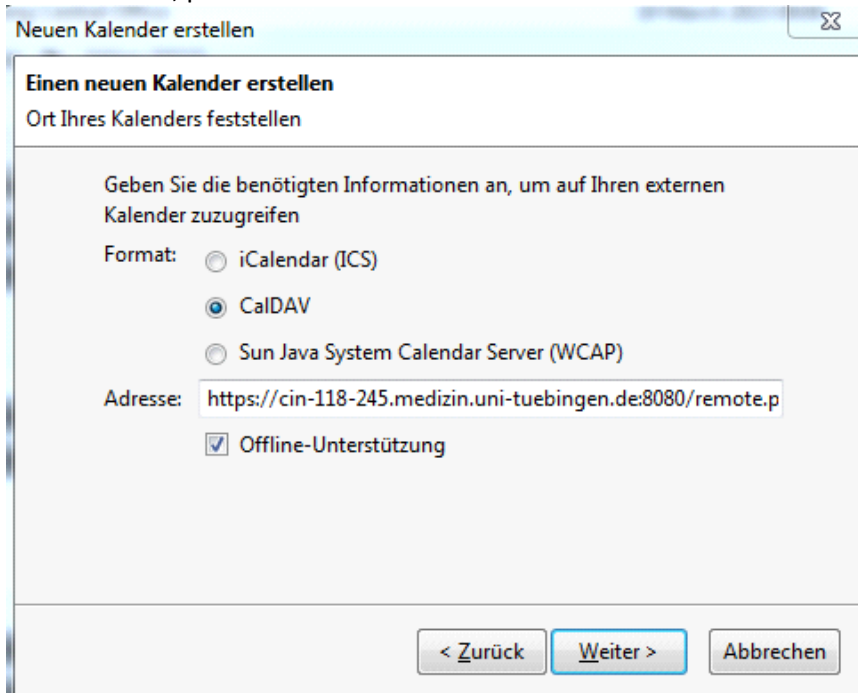

2. Then you can insert the new Calendar with right click on the white space below the existing ones on the left side and select "New Calendar":

Click on Network and Next.

4. Select CalDAV, paste new Link from OwnCloud from above and click on offline support:

Then click on Next.

5. Give the calendar a speaking name and choose your cin email address to connect to this account.

Neuen Kalender erstellen

**Einen neuen Kalender erstellen**  
Ihren Kalender anpassen

Sie können Ihrem Kalender einen Namen geben und Ereignisse dieses Kalenders einfärben.

Name: Seminarroom

Farbe:

Erinnerungen anzeigen:

E-Mail: Adam von Daranyi <adam.von-daranyi...>

< Zurück Weiter > Abbrechen

Thats it. Click on Next and Finish.

6. Now you can be asked for username and password, then the new Seminarroom Calendar will appear, it can take a while to sync everything.

### Ical Users:

1. Click on the lower left side to open the Preferences of OwnCloud, then you will see your iOS CalDAV Link which you need for iCal:

The screenshot shows the 'Zeitzone' (Time Zone) settings in OwnCloud. It includes a gear icon at the top left, a dropdown menu for 'Zeitzone' set to 'Zurich', a checkbox for 'Zeitzone automatisch aktualisieren' (Time zone automatically update) which is unchecked, a dropdown for 'Zeitformat' (Time format) set to '24 Stunden', and a dropdown for 'Erster Wochentag' (First day of the week) set to 'Montag'. Below these are two text input fields: 'Primäre CalDAV-Adresse' and 'iOS/OS X CalDAV-Adresse', both containing the URL 'https://cin-118-245.medizin.uni-tu'.

2. Open iCAL and click in the Calendar Topmenu "Add new Account...".
3. Select "Add new CalDAV Account..." and click on next:

The screenshot shows a dialog box titled 'Einen Kalender-Account zum Hinzufügen auswählen ...'. It contains a list of radio button options: 'iCloud', 'Exchange', 'Google', 'facebook', 'YAHOO!', and 'CalDAV-Account hinzufügen ...'. The 'CalDAV-Account hinzufügen ...' option is selected. At the bottom, there is a question mark icon, an 'Abbrechen' (Cancel) button, and a 'Fortfahren' (Continue) button.

4. Now select Accounttype "Manual" and type in the caldav-link from owncloud or copy and paste it from there. Also type in your username and password you are using for accessing owncloud. Then click on create.

### CalDAV-Account hinzufügen

Geben Sie zunächst folgende Informationen ein:

Accounttyp:

Benutzername:

Passwort:

Serveradresse:

5. After a few seconds you should see your calendars from owncloud. It could take a while to sync all the events.
